THE TREATY OF PEACE WILL SOON BE READY

Full Text of the Agreement Finally Made
Between Russia and Japan.

RUSSIANS ARE JUBILANT NOW---
WITTE STANDS NEXT TO CZAR

Generally Conceded to be Victory for Russia---Roose-
velt Greatest Man of the Hour.

Portsmouth, Aug. 30.—No time is being wasted by the peace plenipotentiaries of Russia and Japan in putting a crown upon the accomplishments of yesterday. A special committee of counselors on each side has been selected to draft a peace treaty and has already made headway in the work assigned them. It is their purpose to bring about final adjournment of the conference Saturday. It is doubtful if the peace envoys will officially visit Washington, New Hampshire insists on entertaining them for a few days in the White Mountains.

Witte Greatest Man in Russia.
St. Petersburg, Aug. 30.—News that peace was agreed upon did not become generally known until this morning owing to the lateness of the hour the word arrived. Yesterday information reached here after most of the papers had gone to press. At every place the health of Witte was drunk with champagne and there is general rejoicing over the news. Witte has become the foremost man in Russia, hardly excluding the czar. The fact that he was able to avoid the payment of an indemnity to Japan is regarded as a great victory, although the cession of half of Sakhalin has caused some adverse comment.

How Peace Was Declared.
Portsmouth, N. H., Aug. 30.—The preliminary arrangements for an armistice were concluded and the actual work of framing "The Treaty of Portsmouth" was by mutual agreement turned over to Mr. De Martini, Russia's great international lawyer, and Mr. Dennison, who for 25 years has acted as legal adviser of the Japanese foreign office. The treaty is expected to be completed by the end of the week. This happy conclusion of the conference, which a week ago would have been shipwrecked had it not been for the heroic intercession of President Roosevelt, was sudden and dramatic. For the sake of peace Japan, with the magnanimity of a victor, at the last moment yielded everything still in issue. Russia refused to budge from the ultimatum, Emperor Nicholas had given Mr. Roosevelt through Ambassador Meyer.

No indemnity under any guise, but an agreement to divide Sakhalin, and reimburse Japan for the maintenance of the Russian prisoners were his last words. They had been repeatedly reiterated in Witte's instructions and in the form of a written reply to the Japanese compromise proposal of last Thursday they were delivered to Komura yesterday. President Roosevelt had, it is believed, advised the Japanese that it was better to meet the Russian position than to take the responsibility of continuing the war for the purpose of collecting tribute. The mild and the elder statesmen yesterday had sanctioned the final concession. When Komura yielded the rest was mere child's play.

Articles 10 and 11 (interned warships, and limitation of Russia's sea power in the far east) were withdrawn. Japan agreed that only that portion of Chinese eastern railroad south of Chantou, the position occupied by Oyama, should be ceded to Japan. Both sides, once the deadlock was broken, wanted a "just and lasting" peace and in that spirit it was decided to practically neutralize Sakhalin, each country binding itself not to fortify its half of the island, and Japan assuming an obligation not to fortify the La Perouse strait between Sakhalin and Hokkaido, which would bar Russia's commercial route to the Pacific.

The plenipotentiaries went further. They decided to add a new clause in the nature of a broad provision for mutual commercial privileges by which each country will secure for the other the benefit of the "most favored nation" clause and the "open door."

The new treaty therefore will be a wonderfully friendly document, and a

character almost to raise suspicion that the two countries have not only negotiated peace, but have concluded a basis of a future alliance. There is, however, no evidence as rumored, that any secret clauses are to be appended to the present treaty.

Before leaving the conference building felicitations were exchanged with the president at Oyster Bay. Both Komura and Witte telegraphed. The former confined himself to expressing Roosevelt of the conditions upon which peace had been concluded. Witte frankly laid his tribute at the president's feet. In his message he said:

"History will ascribe to you the glory," and added the expression of Russia's hearty appreciation of the president's "generous initiative." President Roosevelt replied with words of thanks and congratulation. Then began the jubilation. Witte and Rosen returned to the hotel for luncheon. The Japanese remained at the conference hall to lunch with Pierce. The news that peace had been concluded had preceded the Russian plenipotentiaries, and such scenes of wild rejoicing have never been witnessed in the state of New Hampshire, as greeted them upon their arrival at the hotel.

Witte, dazed at the sudden and happy termination of the conference, was fairly overpowered by the tremendous oration he received. He could only express his gratitude by shaking the hands of everybody. Later in his room, when he had partially recovered himself, he declared he could not have dreamed of such a victory—for that he regards it as a diplomatic triumph of the first magnitude he makes no attempt to conceal. And that is the general verdict here.

The Russians are overjoyed at the result.

"We have had our Liao Yang's and Mukden's on land," they say, "and our Tushimas on sea, but the Japanese have their Portsmouth."

The Japanese demonstration did not begin until after six in the evening, as the Japanese plenipotentiaries and their official secretaries remained at the yard during the afternoon. When it came it was even more remarkable than that for the Russians, for all present appreciated what sacrifices the heroic little nation had made for peace.

The crowd which awaited them as they dashed up in an auto was even larger than that which greeted Witte. The cheering came in volleys. Again and again the crowd cheered and waved their hats. As the car came under the porte Cochere both plenipotentiaries gravely lifted their hats and held them in their hands as they passed through the line of cheering people to the elevator. Komura and Takahira looked straight ahead and seemed almost embarrassed by the ovations.

St. Petersburg Surprised.
St. Petersburg, Aug. 30.—Press dispatches from Portsmouth brought the first news of the result of the peace conference. The news came as an electric surprise, as official and diplomatic circles had been practically without hopes of peace during the day. The result will become known tonight to comparatively few persons.

French Eulogize President.
Paris, Aug. 30.—The French newspapers this morning devote lengthy and eulogistic editorials to President Roosevelt. The president is the hero of the hour—indeed, little mention is made of Emperor Nicholas.

Bells Toll for Joy.
Portsmouth, Aug. 30.—As the news that the plenipotentiaries had agreed to conclude peace spread through the city all church bells were rung and there was a general rejoicing.

BAPTIST HOME. Committee Completed Its Work But Gave Out Nothing.

Louisville, Ky., Aug. 30.—The visiting committee appointed to investigate the management of the Louisville Baptist Orphan's Home concluded its sitting yesterday afternoon and adjourned sine die. It was decided that the Rev. H. H. Bailey, of Shelbyville, shall draw up the formal report of the committee's findings, and get the signature of each committee man before giving anything out for publication.

The Rev. James T. Wilson, of La Grange, said this afternoon: "The committee has agreed on the tenor of the report, and Dr. Bailey will formulate it. We promised not to discuss the evidence we were presented with until the whole matter is published for the Baptists of Kentucky."

"Will there be anything of a sensational character in the report?" he was asked.

"Not nearly so serious as many persons expected," he replied. "There were no disclosures that could be called sensational or even grave."

DIRT WILL FLY When Work Begins on the Cairo and Tennessee River Railroad in a Few Days.

Mayfield, Ky., Aug. 30.—Word full of encouragement to those interested in the new railroad came in a telegram to Mr. H. C. Neale. It is from L. W. Goode, in New York, and announces the construction work is to begin on the Cairo and Tennessee River railroad the first week in September.

The calendar indicates that next week is the first one in September, so it may be realized that the dirt will begin to fly in three or four days along this new line.

Construction work is not to be confined to any certain division of the road, but contracts will be let the entire length of the survey simultaneously.

Dr. Wm. Bailey, of Louisville, a member of the state board of health, and an authority on yellow fever, will deliver an address on the situation as it affects Paducah and Kentucky, at the city hall tonight, and the citizens are urged to be present to hear him.

As the city has become very much exercised over the question of a quarantine, what the doctor will say should interest everyone.

The representatives of the state board in the city claim those wanting a quarantine, the mayor included, do not understand the situation and it is due the state board that they be heard before anything that may bring about a conflict of authorities.

SAVED HER. From Drowning Only to Lose Her, and Probably His Own Life by Fire.

Hammond, Ind., Aug. 30.—Mrs. A. S. Wilkins, wife of an Erie Railroad conductor, died in St. Margaret's hospital here as the result of an explosion. Her husband is not expected to live, as he was fearfully burned in the effort made to save his wife.

The young couple had just returned from a day's merry-making at Bass Lake. Mrs. Wilkins had lighted a match to start a fire in the gas range when a fierce explosion occurred. Mrs. Wilkins was at once wrapped in sheets of flames. While rolling her in a rug Wilkins received his injuries. A leak in the meter caused the explosion.

A singular coincidence is that while Wilkins and his wife were bathing in Bass Lake, Mrs. Wilkins was nearly drowned and was rescued by her husband with the greatest difficulty.

Big Companies Hot After Paducah Man's Device to Prevent Collisions

New York, Aug. 30.—It is reported that representatives of the Brooklyn Rapid Transit elevated lines are negotiating with attorneys to secure the right to use if experimental tests and thorough trials demonstrate its reliability and utility, the train signaling device patented recently by Samuel E. Foreman, of Paducah.

No details of offers are to be disclosed, as negotiations have just begun. The present Brooklyn elevated signaling system is not satisfactory, especially in winter or on foggy nights because of so many curves and turns.

Expert electric railroad operators state that Foreman's device of current conductors along the tracks connecting all trains and the resistance

AN UNEVENTFUL DAY IN CAMP YEISER

The Routine Work Takes up
Most of the Soldier's Time.

Yesterday Was Pay Day—Not a Case
of Serious Sickness in Camp
at Present.

MANY WITNESS DRESS PARADE

The day has been an uneventful one at Camp Yeiser. The general routine is gone through with these days with the system and regularity of a regular camp, and the officers are highly pleased. The weather is ideal for camp life, and the work is done with a spirit of enthusiasm.

The officers of the day are: Capt. H. H. Denhardt, of company A, officer of the day; Lieut. Homer Jones, company B, senior officer of the guard; Lieut. Riley, company P, junior officer of the day.

There is not a case of sickness in the hospital, and Dr. McCormack is very proud of the fact. One man was overcome by the heat Monday but is all right today, and another private had a slight attack of heart trouble. Aside from these, there was no illness reported.

The camp is about the healthiest place in West Kentucky these days. A tour of investigation will hardly reveal any dirt of any kind. All the garbage is promptly burned, and the camp is an object lesson for the city, from a sanitary standpoint.

The general headquarters' officers and men are being paid off today by Col. Mott Ayres, paymaster, and the artillerymen will be paid off Tuesday at Frankfort.

Col. Ayres paid off the regiment in 14 minutes Tuesday, which is near his record. The total amount of the pay rolls was \$3700.

Capt. Longmire and the men he took to Russellville, will probably return to Frankfort Tuesday.

Companies C and D are at the rifle range today.

Col. Gaines, Col. Ayres and Col. Tandy will remain over after the third regiment departs Saturday until Monday to attend the details of camp breaking. The wives of the officers, with the exception of Mrs. Mott Ayres, Mrs. Henry and Mrs. Tandy, returned to their homes yesterday.

The Third regiment will be given a dance at the pavilion by the young society men tonight.

Mosquitoes are hard to find in the camp. When the camp was first established it swarmed with them, and a general call was sent in for nets, but after all the pools in the neighborhood were treated to a generous supply of oil, most of the mosquitoes were killed.

"This is evidence," said Dr. McCormack today, "that the mosquito can not fly very far, and if a man will remember this and take measures to kill off the mosquitoes in his vicinity, he will soon be free of them. It is only a question of time when every one will recognize and appreciate the fact that the mosquito and the house fly are about as dangerous things as can be tolerated, and one of the greatest menaces to the health of a family, or community."

"In this connection let me say one thing: We have captured over 300 mosquitoes in the camp and vicinity and have found only one of the stegomyia species—the yellow fever germ carrier. In Paris, Ky., investigation has shown 15 per cent of the mosquitoes are of that variety and in Bowling Green and other Kentucky cities 38 per cent."

Dr. McCormack speaks highly of the water supply of Paducah and declares it is the best in Kentucky. He also speaks well of the health conditions of the city. "If you will only extend your sewerage system now, there is no reason why Paducah

indicator, is theoretically the best in the market for the purpose. If it works correctly.

Mr. Foreman said in regard to the above dispatch that several big companies are after the patent, but are waiting to ascertain if it proves a success. He has received no definite offers that are ready to be made public. A great deal depends on the success of the device. If it proves a success, his fortune will be made.

Mr. Foreman's device is an automatic mechanism, operated by electricity, which will prevent collision on railways and railroads, trains being stopped automatically by the attachment when within half a mile of one another.

should not, and will not be as healthy as any town in Kentucky, on the the rivers," he said.

Dress parade continues to attract big crowds to league park every afternoon and another large crowd was out Tuesday. Parade will be held again this afternoon at the usual hour.

Friday night at the wigwam the Otega tribe of Red men will have a social session in honor of Great Prophet H. H. Denhardt, who is captain of the Bowling Green company, and Gen. Guy Briggs, who is past great sachem, of Frankfort.

BOARD OF HEALTH

APPOINTS A COMMITTEE TO Aid
IN GETTING MORE SEWER-
AGE.

Orders School Buildings Fumigated
and All Nuisances in the City
Abated.

The city board of health held a meeting this afternoon at the city hall and had a number of matters up before it.

It appointed a committee composed of Dr. H. P. Sights and Mr. James Sleeth to co-operate with the board of education and go before the general council and ask for an ordinance providing for an extension of the sanitary sewerage from Ninth street to the High school building, on Broadway.

It ordered all the city school buildings well fumigated before opening the schools.

It also ordered all nuisances of all descriptions in all parts of the city abated, and ordered warrants taken out against all who fail to abate such nuisances.

KILLED FRIEND. Miner Claims the Shooting Was Pure- ly Accidental.

Dickinson, N. D., Aug. 30.—H. K. Clemie was shot and killed by Chas. Hartwell at Ziner ranch, northwest of here. Hartwell was the principal witness for the defense in the trial of Clemie for the alleged murder of Ole P. Ziner, who was killed May 20, 1904. Clemie was acquitted on a plea of self-defense.

Since then he and Hartwell have been working Ziner's ranch, which Clemie purchased. Hartwell surrendered himself, and claims the killing of Clemie was accidental.

PLUCKY GIRLS. Start for a Tour of the World—Will Write Their Way.

Chicago, Aug. 30.—September 7, Anna Planch and Luella Conley, young newspaper women of Chicago, will start working their way around the globe. They will start practically penniless and intend to visit the Fiji Islands, Samoa, New Zealand, Australia, Honore, the Philippines, Japan, China, India, Ceylon, Arabia, Egypt, South Africa and all the countries of Europe and England. They expect to earn their way by newspaper and magazine contributions.

ACCIDENTALLY SHOT.

Will Angle Hit by a 22-Calibre
Bullet.

Will Angle, a well known employee of the Cairo division of the I. C., was painfully shot yesterday afternoon about 4 o'clock by a friend. Angle and a friend were out practicing with 22 Winchester rifles on the Mayfield road and in some manner the gun held by the friend was discharged. The bullet struck Mr. Angle in the left thigh and ranged downward. Dr. Griffith was called but has not located the bullet.

Mr. Angle is resting nicely today at his home on Guthrie Ave.

SMALL MARKET.

For Tobacco Since the Fire Last
Week.

On account of the burning of the Graham and Farmer tobacco warehouses last week, the local tobacco market has been very light this week in offerings. There were thirty hogheads sold this morning at the Western District warehouse, the highest bringing \$7.50.

Stocks Were buoyant.

London, Aug. 30.—Trading on stock exchange opened buoyantly today and all stocks are advancing on account of the peace situation. Both Russian and Japanese bonds advanced sharply.

Vesuvius In Eruption.

Naples, Aug. 30.—Mount Vesuvius is in full eruption and dense smoke hangs over the island, which has thrown the inhabitants into a state of panic.

Inspection of Parishes.

New Orleans, Aug. 30.—The most important developments of the yellow fever situation yesterday was the report of Dr. Brady, who had been sent by the state board of health on a tour of inspection of the bayous and lakes in Jefferson parish.

Dr. Brady made the trip with Dr. Shanley of North Dakota. Without completing their investigation, they turned up 35 cases of yellow fever, mostly along the Bayou Barataria, and learned that many deaths had occurred and found much suffering.

The local situation continues to be of the most hopeful character and the confidence of the federal authorities is growing that the disease will have practically disappeared before frost.

Prisoner Profits From Quarantine.

Cairo, Ill., Aug. 30.—A prisoner brought here from Thebes by a deputy sheriff was denied admission because he had no permit to enter Cairo. Sheriff Roach was allowed to become sponsor for him, and he was given a hearing, admitted to bail and then returned to Thebes.

No Truth in Report.

A rumor was freely circulated yesterday that a case of yellow fever had been discovered in Memphis. The Sun telegraphed and received the following reply from the News-Scholar:

"Absolutely no truth."
(Signed) Scimitar.

News of Outside Parishes.

New Orleans, La., Aug. 30.—Yellow fever news from the outside parishes again holds the attention of health authorities. In addition to thirty cases found along Bayou Barataria, Jefferson Parish, new cases are reported from Port Barrow, three from Patterson, five from Kenner, two from Hanson City, four from Amelia, one from Boon, two from Adroyne plantation, three from Strose. There are nine cases and five suspects at Natchez, and the town is practically deserted.

Yellow Fever at Pensacola.

Washington, D. C., Aug. 30.—The surgeon general of the army this morning received a telegram from the surgeon in charge of the army post at Barrancas, Florida, just off Pensacola, stating that the mayor of Pensacola had officially announced that yellow fever had broken out there.

400 MEN GONE.

Believed to Have Been Lost in a Hur-
ricane Off Nagasaki.

London, Aug. 30.—The correspondent of the Telegraph at Leghorn sends a report received from Nagasaki of the overturning of a hundred fishing boats by a hurricane off Goto Island in the Korea channel. Four hundred men are missing and it is feared they have been drowned.

A Noted Pilot Dead.

Madison, Ind., Aug. 30.—Capt. Charles Duprez died this morning. He was pilot on the St. Charles, which raced with the Gen. Lytle when the latter blew up near Madison in 1866.

HAPPY RESULTS.

Have Made Many Paducah Residents Enthusiastic.

No wonder scores of Paducah citizens grow enthusiastic. It is enough to make anyone happy to find relief after years of suffering. Public statements like the following are but truthful representations of the daily work done in Paducah by Dean's Kidney Pills.

T. W. Woodson, of 40 South 9th street, painter, employed with C. D. Warren, 408 1-2 Broadway, says: "Every painter is more or less troubled with his kidneys on account of the nature of his work. We all know what causes it, but how to remove it is a mystery. I tried lots of medicine and different schemes, but until I procured Dean's Kidney Pills at Dalton's, Koth & Co's drug store and took a course of the treatment I met with very indifferent success. They cured the trouble."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name—Dean's—and take no other.

A Dedication Sunday.

The third quarterly conference will be held at Reiland church, this county, Saturday and Sunday, then a series of meetings will begin to continue for a week or more. The church will be dedicated Sunday and the dedicatory sermon is to be preached by Rev. J. H. Roberts, presiding elder of the Paducah district. The church was built about a year ago and the last of the indebtedness has been paid. Rev. Cap Owen, who will assist in the meeting, was instrumental in building the church.

LATE BASEBALL NEWS

Another Shut-Out.

Yesterday's game was a shutout for Paducah. Vincennes did not appear to care much about the game and seven scores were made by the Indians during the first two innings. The wind-up was 8 to 0. The batteries were South and Land for Paducah, and Forney and Matteson for Vincennes.

This made four of the last six games played here by Paducah and Vincennes that were shutouts. The next club to come here is Hickman, for three games beginning next Saturday. Hickman has a strong team, and defeated the Nashville Americans by a score of 1 to 0 Monday.

Bohannon Goes to Nashville.
"Red" Bohannon, the creek third baseman, has gone to Nashville to finish out the season with the team of that place. Bohannon is the only Paducah player to leave the team so far and the remainder of the players will remain in Paducah indefinitely. President Gus Thompson, of the local association, stated this morning that Land would remain in Paducah longer than the 30th and the team will play independent ball for some time to come.

Two Purchased by Nashville.
Nashville, Tenn., Aug. 30.—Pitcher Huggan, of Vincennes, and infielder Bohannon, of Paducah, both Kity league players, were purchased yesterday by Nashville.

Gaston, the former Kity player, is playing in the outfield with New Orleans which team is in the lead for the Southern league pennant.

Theatrical Notes

"The Pool House" by the Four Huntings and company, gave a creditable performance at The Kentucky last night to a fairly large audience. This play is a farce with plenty of music, dancing and other vaudeville features. The members of the company were very capable and the performance seemed to please very much.

Love at first sight sometimes lights out in second.

STREET CLEANING TO BE DISCUSSED

Board of Works May Adopt a New Plan for it Here.

Contemplate Buying a "Pusher"—Also to Try the "Hand Sweeper" on Broadway.

WANT CEMENT TO AID IN TEST

The board of public works has a number of important changes to make in regard to street cleaning and such things and will endeavor to bring them before the local legislative boards in plenty of time to receive consideration before the tax levy is made for next year. The recommendations of the board for this year were turned down by the general council because it was claimed there was not money enough to give them what they asked.

Auditor Alex Kirkland, while attending the convention of the American League of Municipalities last week, investigated the question of street cleaning, according to a member of the board, and ascertained that all the big cities are now adopting the "flush system." They use a machine that costs a couple of hundred dollars—about the same as a good fire department horse—and washes everything on an improved street, over against the curbing, where it can easily be shoveled into a cart and hauled away. It would be cheaper and better than the present plan of cleaning the improved streets in Paducah, which is not at all satisfactory.

New Kind of Street Sweeper.
The board of works will probably this afternoon at its regular meeting authorize Secretary S. A. Fowler to send for a hand street sweeper, for trial. It is the newest thing in the way of a street cleaner, and is being used in many places. It is nothing more or less than a big "carpet sweeper," and a man can run it over the smooth streets and take up all the dirt and trash with it as it goes along. The factory offers to send one on trial free of charge, and the cost of them is very little. It is believed by members of the board that two men with these sweepers could keep Broadway constantly clean.

To Make an Oil Test.
A letter has been received by Secretary S. A. Fowler, of the board of works, in regard to the use of oil on streets and roads, and the board of works will immediately ask the co-operation of the county in giving the method a test from Fountain avenue to Wallace park, making it thus one half the city's and half the county's property.

The letter from Lexington says that the plan there is a great success. Ragged crude oil is used. It is put in a very simple and inexpensive manner. Holes and runs are first smoothed over and the dirt and trash swept to the side. About two-thirds of a gallon of the crude oil is then placed on a square yard of road, and a thin layer of sharp sand on this. The road is then ready for use. The oil is put on by an attachment costing about \$175, which can be used on any street sprinkler. The city is very anxious to give oil roads a trial, and all that is needed is the co-operation of the county. Mayor Yeiser recommended the trial some days ago at a meeting of the council.

May Have to Pay More.
It is understood that the work of the members of the board of public works is becoming much greater than they anticipated, and an effort may be made to either pay them more money in order to justify them in giving up so much of their time to the city's business, or else disburse with a board of works entirely, and elect a superintendent of public works, which the charter permits, and pay him a large enough salary to justify him in giving all his time to the city. The work the board has done has been a great help to the city, and it seems disposed to keep abreast of the times, but is always more or less handicapped by the unprogressive men in the legislative boards. The members of the board of works are all busy men, and that they should have given this much of their time without complaint is unusual, particularly when they have been discouraged and turned down in many of their best efforts by the legislative boards.

THE ECLIPSE

HUNDREDS OF PEOPLE IN PADUCAH AROSE EARLY.

Those Who Expected to See Anything Very Unusual Were Disappointed.

The eclipse of the sun came off at the appointed time this morning, and the hundreds of people in Paducah who arose early to see it, were rewarded with a clear sky.

Most of them were disappointed, however, it was only a partial eclipse here, a large portion of the sun having a dark shadow over it, making it crescent-shaped. The shadow could not be observed very well without smoked glass. Those who had been confining up visions of sudden twilight or darkness, and chickens going back to roost, and such things, were much disappointed. Few people in Paducah would have noticed there was an eclipse or any-

thing unusual had they not read about it before-hand in the papers.

The river front seemed to be a favorite place for viewing the phenomenon, and one of the best views in this section was afforded the soldiers in camp at Wallace park.

According to the astronomers the shadow struck the sun at 5:28 for this section of the country, and had passed completely off by 6:25.

BURIAL AT JACKSON.

Body of Mr. William Threadgill Taken There For Interment.

The Jackson, Tenn., Whig says of the death of Mr. William Threadgill, formerly of Paducah, who was drowned at Shreveport, La., in Red river while trying to save a friend:

"Miss Will Threadgill is a daughter of Esq. Geo. Black, who lives a short distance east of town, and is visiting her father. When Mr. Threadgill received the telegram, he drove out to 'Squire' Black's and broke the news to the stricken wife. She was prostrated with grief. By a fatal coincidence the husband of another daughter of Esquire Black, Mr. Parquet, met death in a similar manner some years since.

"The body of Mr. Threadgill was recovered and will arrive in the city over the M. & O. at 9:22 this morning and will be carried to the home of W. L. Phipps, 393 East Chester street. The funeral will be held at the Cumberland Presbyterian church, Wednesday morning at 10 o'clock. Rev. C. W. Welch officiating. The following gentlemen are requested to act as pallbearers and to meet at Phipps & Griffin's at 9 o'clock this morning: C. A. Glenn, Robt. E. Roberts, W. H. Helges, W. J. Asplund, W. J. Teague, James May.

HEALTH OFFICERS AND SHERIFF CLASH

Trouble at Cairo Over the Rigid Quarantine.

The Sheriff Is Alleged to Have Released a Passenger Who Had No Permit.

PROSECUTION IS THREATENED.

Cairo, Ill., Aug. 30.—A clash occurred yesterday between the Illinois state board of health officers and Sheriff James A. Roache, which it is believed will lead to sensational developments.

There has been ill feeling between the sheriff and the health authorities for several days and it is stated that the latter yesterday threatened to place the whole outfit, meaning the inspectors, in jail.

The trouble came to a head when a passenger on the Illinois Central train alighted at the Central Union station without a permit. The state officer who was inspecting the train called a police man to take the man in charge as he was rule with passengers who insist on coming into the city without permits. Sheriff Roache was present and it is alleged said that he would take the passenger in charge. Together with the passenger he walked up the street a few blocks and then separated. Trouble over his action, it is said, resulted.

Dr. Palmer, assistant secretary of the state board of health, who is in absolute charge of the service during the absence of Dr. Egan, who is in Chicago, stated that he was not prepared to state what action the board would take in the matter.

The sheriff has openly defied the board and it is said heaped abuse upon the officers in his service.

It is alleged that the sheriff arrested a man engaged as a patrolman, or special policeman, while he was on duty, on some trivial charge, preferred by an irresponsible negro and left the man unprotected. The guard was released the next day with out a trial.

The state laws provided that the sheriff shall act in co-operation with the state board of health in enforcing quarantines and shall upon refusal to do so lay himself liable to arrest.

A CONSTABLE

Will Collect the Tax in Sixth School District.

By agreement, the matter of Sheriff L. D. Potter's collecting a special school tax in district No. 6 to satisfy a school debt judgment, has been dropped.

Sheriff Potter convinced the trustees that he was not required to collect the tax, and suggested that the trustees secure a constable, which will be done. The collection will begin in a few days. It is said, the trustees desiring to get the matter off their hands as soon as possible. For a time it seemed that Sheriff Potter would be forced into the courts because of his refusal to collect the tax.

REFUGEE TRAIN.

Was Run Out of New Orleans for Chicago.

The I. C. ran a special refugee train out of New Orleans last night and it took a route to Chicago via Cairo. All doors were locked and the windows closed and no stops made except at watering and coal stations. The train passed Fulton about 11 o'clock running as the second section of the fast passenger train.

KENTUCKY NEWSLETS

A Democratic Row in Hopkins. Madisonville, Ky., Aug. 30.—The democratic city committee of Madisonville has addressed a letter to the ignored candidates for councilmen in the various wards of the city, proposing to submit the question of said city committee's right to nominate candidates for councilmen in said city to the state central committee for decision, and requiring that all democrats be bound by the decision of said state central committee; and the ignored candidates, believing that all power of making nominations is lodged in the people, and that such candidates have no right to bind the party by any such agreement, but that such power lies solely in the people of the party, hereby call for a mass meeting of the democrats of Madisonville to be held at the court house on Friday night, September 1, 1905, for the purpose of allowing the democratic voters of said city to say whether said question be submitted to the said state central committee.

Catholics to Build Church.

Fulton, Ky., Aug. 30.—For some years the Catholics of Fulton have contemplated building a church, but it seems until recently a suitable location could not be found. A deal was made, however, yesterday when the Ayres lot on Eddings street was purchased, and a church building will soon adorn this property. There are not a great many Catholics in Fulton, but those who are here are zealous in the work.

Deaths in This Section.

Mayfield, Ky., Aug. 30.—Mr. S. J. Davis died at his home in east Murray at the age of 76. He had been sick for several months, and died of the infirmities of old age. He leaves four girls and three boys. He was one of the best known democrats in Calloway county, having voted the ticket straight for 54 years without bolting. This is an unusual record in Calloway county.

Mr. William Gary died at his home three miles north of the city Monday. He had been sick only about one day. He had been afflicted more or less with what is known as walking fever. He was 53 years old and leaves a wife.

Arson is Charged.

Horse Cave, Ky., Aug. 30.—Will Jeffries has been arrested on the charge of setting fire to the fair grounds buildings, which were destroyed Saturday evening. Jeffries admits that he was at the grounds Saturday night, but claims the fire was started by accident. Warrants have been issued for fifteen well known young men and boys, many of whom have fled from town. Jeffries' arrest was caused by the bloodhounds which was put on the case following the trail to his door.

THE REFUGEES ARE NOT TO BE BARRED

State Board of Health Merely Adopts "Precautions."

Dr. McCormack, of Bowling Green, Does Not Think Paducah Will Quarantine.

MAKES OFFICIAL STATEMENT.

Bowling Green, Ky., Aug. 30.—Regarding the report to the effect that the Kentucky state board of health had quarantined against refugees from the south, Dr. J. M. McCormack of this city, secretary of the state board, gave out the following interview:

"Kentucky has not established a quarantine, but has simply extended its regulations of August 3, so as to require that no railroad or steamboat company shall furnish transportation to or bring into this state any person from any of the infected districts of Louisiana or Mississippi who do not hold a certificate from some proper state or United States health official that he has remained at one of their detention camps for at least seven days. All of the trains from the south have been notified of this regulation and it is now in full operation.

Local Quarantines Not Effective.

"The state board of health holds that local quarantines have never proven effective against yellow fever, and are almost as disastrous in their influence upon travel and commerce as the disease itself. This has been shown year after year in the south, and history is repeating itself to the same effect this year.

"The towns and cities in Louisiana and Mississippi which are most afflicted are among those which have maintained strict non-intercourse quarantines against Louisiana, while a number which have kept up only a systematic notification and inspection service, with free travel, have entirely escaped.

Situation at Paducah.

"I hardly believe a quarantine will be attempted at Paducah. The relations between Mayor Yelzer and myself have always been most pleasant, and certainly no personal feeling will enter into the discussion of the question. Both the city and county boards of health are opposed to such action, according to my information, and they have invited Dr. William Bailey, a member of our board and an authority upon that subject of yellow fever, to address the officials and citizens upon that subject Wednesday evening.

Dr. Bailey Expect On Yellow Fever.

"Dr. Bailey has visited Cuba and made a special study of the methods adopted to rid Havana of this pestilence, and will make it plain that the comprehensive plans adopted for the protection of the entire people of Kentucky will do more for each locality than can be done by any local quarantine, no matter how rigid or expensively enforced. Besides, no city or county can maintain a legal quarantine without the official approval of the state board of health, and to maintain it otherwise would render the officers and the municipality itself liable in damage to any person of corporation injured or inconvenienced by it.

Authorities Will Not Clash.

"It was the purpose of the general assembly to secure uniform action in the times of emergency like this, and there has always been, and we hope always will be, the most cordial cooperation between us and the local authorities in all our life-saving work. We certainly have no other interest or desire, and if there is any conflict anywhere it will not be of our seeking."

CROP REPORT.

The Week Was Generally Favourable to Crops.

The week summary of crop conditions in Kentucky, is as follows: Heavy rains occurred during the week in the northeastern and extreme western portions of the state, and lighter rains in other parts of the eastern and western sections, but little or none fell in the central portion. The week was generally favorable for the remaining crops, of which corn and tobacco are the only ones of great importance. Plowing for wheat and rye continued generally, but it became too dry in some localities for this work.

Corn continues in splendid condition, and promises a very large crop. The early planted is about

matured and will soon be cut, while the late planted is practically assured.

Tobacco. Tobacco made fine progress in thickening, budding and ripening, and there was general improvement during the week. There has been too much rain, however, in some localities and more sunshine is needed. Cutting and housing continues, and there is further complaint of house burning. Worms, too, are becoming more troublesome, especially in the western counties. There is some complaint of damage from weather earlier in the season and lack of cultivation, also lateness in maturing and unevenness in size of plants; but, on the whole, the crop is splendid.

Fruit—Apples continue dropping and the crop will be light and of poor quality, with varying reports as to the extent. Peaches are ripening and will be a light crop. Potatoes and peas are fine, and there is an abundance of all kinds of vegetables and garden truck. There is a large crop of sorghum. Pastures continue good.

Clarksville Tobacco Market. Clarksville, Tenn., Aug. 30.—The

receipts in the local tobacco market last week were 296 hogsheds, offerings on the locals 194 hogsheds, public and private sales 527 hogsheds. The market was active and firm on all grades. Shipments grew steadily and stocks will soon show a reduction. The weather continues hot and forcing, with showers when needed, and all vegetation is flourishing. The early tobacco plantings are falling before the knife and the late plantings growing off well, though the worms are very troublesome. The following prices are quoted: Low lugs, \$3.50 @ 4.00; common lugs, \$4.00 @ 4.25; medium lugs, \$4.25 @ 4.75; good lugs, \$4.75 @ 5.25; low leaf, \$5.00 @ 6.00; common leaf, \$6.25 @ 7.00; medium leaf, \$7.50 @ 8.50; good leaf, \$9.00 @ 10.50; fine leaf, \$11.00 @ 12.50; sections, \$13.00 @ 15.00.

Daily Thought.

"Whatever we look on, at our side
 be Charity—to bid us think and
 feel."

THE QUARANTINE QUESTION.
 The board of aldermen meets to-
 night to take up the quarantine or
 ordinance, and will doubtless pass it.
 It is not a measure declaring a quar-
 antine, but merely one authorizing
 the city to declare one whenever it
 desires to.

It is likely, however, that Paducah
 will shortly declare an inspection
 quarantine. This will keep no one
 out of the city, and will enable per-
 sons to come here just the same as
 before, provided they have health
 certificates. It will aid every branch
 of trade, for after other cities have
 ascertained that Paducah has taken
 precautions to keep out people who
 haven't certificates of health, they
 will raise the quarantine against Pa-
 ducah and allow our traveling men
 and other citizens to come in. The
 cost of an inspection quarantine will
 not be large, and even if it were, it
 has been clearly demonstrated that
 Paducah cannot well get along with-
 out it. No one wants or asks for a
 quarantine that will keep anyone out
 of Paducah except those who cannot
 or will not obtain health certificates.
 If anyone wants to come here very
 badly he will get a health certifi-
 cate before starting and will encoun-
 ter no trouble when he gets here.

Even an inspection quarantine is
 likely unnecessary from a stand-
 point of danger from yellow fever,
 but one is necessary to convince the
 people in other cities that Paducah
 is taking precautions to keep out re-
 fugees from the infected districts, and
 induce these cities to open their
 gates to us and our trade. It is
 likely that the members of the al-
 dermanic board will promptly do
 what is advisable under the circum-
 stances. In regard to the activity of
 the state board of health at this time,
 Dr. William Bailey, of Louisville, is
 to address the people of Paducah at
 the city hall tonight on yellow fever.
 Dr. Bailey is a member of the state
 board of health, an intelligent, ex-
 perience gentleman, and is welcome
 to Paducah both individually and of-
 ficially. If he has come here at the
 instigation of the state board of
 health to throw dust in the eyes of
 the people of Paducah however, and
 to try to blind them to the fact that
 the state board of health has acted
 indifferently and tyrannically in its
 open door policy and its threats to
 stop trains from running into Pa-
 ducah or stopping here, he might as
 well not have come. The people of
 Paducah so far as we can learn by
 talking to representative citizens,
 are not particularly interested in yellow
 fever, and they are perfectly
 willing to concede, if it will be any
 satisfaction to the state board of
 health and others, that there is no
 danger of yellow fever getting a
 foothold in Paducah or Kentucky.
 Hence all argument along this line
 will be wasted. What is contended
 is that an inspection quarantine was
 and is needed here to protect our

EPITOME OF THE WAR IN THE FAR EAST

Muscovite aggression and Japanese commercial needs the cause,
 and a succession of Russian defeats the result.

Summary of Causes.

1. Refusal of Russia to recognize the complete sovereignty of China over Manchuria.
2. Refusal of Russia to admit Japan's paramount interests in Korea.
3. Refusal of Russia to recognize the full commercial rights of other nations in Manchuria.
4. The dependence of Japan upon Korea as a market for her man-ufactured goods and for her supply of food.
5. Encroachment of Russia upon territory along the Yalu river.

Chief Events of Conflict.

February 5, 1904.—Japan breaks off diplomatic relations with Rus-sia.
 February 8-9.—Admiral Togo attacks Port Arthur with torpedo fleet and badly damages several of the finest Russian ships. Japanese troops land in Korea.
 February 10.—Czar declares war against Japan.
 February 11.—Mikado formally proclaims war against Russia.
 May 1.—Russians under Gen. Sassulitch defeated by Gen. Kuroki on the Yalu river in the first important land battle of the war.
 August 26-September 4.—Russian forces under Kuropatkin defeat-ed and forced to retreat in nine days' battle at Liaoyang.
 January 1, 1905.—Port Arthur surrendered by Gen. Stoessel to Jap- anese under Gen. Nogai.
 February 24-March 12.—Russians defeated in series of battles and compelled to evacuate Mukden and retreat northward.
 May 27-28.—Admiral Togo met and practically annihilated the Rus- sian battle fleet under Admiral Rojestvensky in the sea of Japan.
 June 3.—President Roosevelt sounds Japan and Russia as to their willingness to conclude peace.
 June 12.—Russia and Japan agree to appoint peace commission- ers.

August 29.—Russia and Japan agree on peace terms.

Cost in Men, Ships and Money.

Russian losses—Killed and wounded, 245,000; warships sunk or cap- tured, 62; estimated cost of war, \$2,000,000,000.
 Japanese losses—Killed and wounded, 175,000; warships lost, 9; es- timated cost of war, \$1,500,000,000.

business interests, and the fact that so many merchants, especially whole- sale merchants, are unable to send salesmen into their regular terri- tories and have consequently suffered loss of business, shows that those who favored this inspection quaran- tine at the start and still favor it, were right and are still right and the longer Paducah puts it off the worse it will be. If Dr. Bailey or any of the other able opponents of an inspec- tion quarantine can convince the merchants of Paducah that an in- spection quarantine would not have prevented Calro, Memphis and other places from quarantining against Pa- ducah, and obviated their refusing to accept health certificates from Pa- ducah, or that a failure to establish an inspection quarantine will not continue to work hardship and pec- uniary loss on the business inter- ests, his trip will not have been in vain. If Dr. Bailey intends to treat the public to any learned disserta- tion on yellow fever, mosquitoes and such things, however, he will find a very unresponsive audience.

Gov. Cummins, of Iowa, who was charged by Secretary of the Treasury Shaw with misquoting him, offers in explanation the statement that he "quoted from an editorial in a news- paper," and adds that "it is incred- ible that he (the editor) should mis- understand you." Perhaps so. Yet Secretary Shaw says he was misquoting, and he would hardly say that con- sidering the fact that the speech that was misquoted was heard by a good many people, and that the secretary is too much of a man to go back on any- thing he says, unless it was true. Gov. Cummins seems to have the worst of the argument, and should apologize.

Says the Evansville Journal-News: "Mayor Woodward, of Atlanta, may have been drunk at Toledo when he made his attack upon Mayor Dunne, but he was sober enough to tell a wholesome truth when he said that a mayor may get into office on a mu- nicipal ownership platform, but he will find its accomplishment impossi- ble when he gets there. They are threatening to impeach Woodward down at Atlanta, on the charge that he made a maudlin speech, but the force of his truth may prove an alibi for him."

BISHOP WOODCOCK

CALLS AN EPISCOPAL CONFER-
 ENCE FOR OCTOBER.

It is His Desire That It Be Made an
 Annual Institution of the
 State of Kentucky.

Bishop Woodcock, of the diocese of Kentucky, has issued a call for the holding of a conference of the local Episcopal churches, which will be held in the last week in October, says the Courier-Journal. The lead- ers of the Episcopal church all over the country have been considering for some time the advisability of holding church conferences in dif- ferent large cities. In order to dis- cuss the status of the church, as well as the condition of the subsidiary or- ganizations connected with it. It has met with much approval, and Bishop Woodcock determined to make a trial of it at once, and accord- ingly has arranged for a large meet- ing. He will try to make it an an- nual institution, if the conference shows that it will be productive of some good toward the Episcopal church.

Louisville was chosen as the place for the conference of this part of the country, because it was felt that it was one of the strongholds of the Episcopal church. Another confer- ence will be held about the same time in Hartford, Conn., and on the outcome of these depend the failure or success of the plan. The meeting will close with a banquet, at which the outlook for the following year will be discussed. The only definite part of the program thus far arrang- ed is Sunday, October 29, when a farewell meeting will be held at the Masonic Temple.

NEW ORDER.

Mail Carriers Do Not Have to Go
 Higher Than Second Floor.

An order just issued by the post- office department at Washington will bring joy to letter carriers in the large cities of the United States who heretofore have had to climb many flights of stairs many times a day. The order is with some exceptions is that mail carriers will not have to go higher than the ground floor in de- livering mail. The order applies to Paducah, but it is of little benefit to local letter carriers, since Paducah has few houses where mail must be delivered on the second and third floors. Only in the business section is this condition present and then the exception to the order applies, in that where there is a place of business on the second floor of a business house, carriers must walk up that high to deliver mail but no higher.

In cities, however, where there are large tenement houses the new order will be a boon for the carriers.

ment of the public on the unexpected nature of the peace terms, are ac- cording the greatest praise to Japan for having chosen so magnanimous a course.

It is contended that by waiving the question of indemnity Japan might justly claim the whole of Sak- halin, and that therefore the return of half the island is a concession en- tirely in the interest of peace.

All papers express gratitude to President Roosevelt and admiration of his untiring zeal, giving him full credit for being "the one man who made peace possible."

It Means Much to Uncle Sam.

Washington, Aug. 30.—The news of the agreement of the peace plen-ipotentiaries at Portsmouth was re- ceived here with surprise for while the official mind had been in a meas- ure prepared for the successful out- come of the conference, no such speed- y action was anticipated.

The state department in the result of the negotiations realize a great victory in having secured beyond any question the open door in Manchuria which was so dear to the heart of the late Secretary Hay.

The territorial integrity of China seems also assured and with the res- toration of the vast Manchurian provinces to the control of the present emperor of China and the dowager empress it is felt here that there is an end for all time of insidious foreign aggressions upon Chinese soil.

With Korea under a Japanese pro- tectorate, developing its great natu- ral resources, and all to be opened to American exploration on even terms with other nations, a large increase in the foreign market open to our products is expected.

For its part the navy will be re- lieved of the tedious and expensive patrol which it has been maintain- ing in the Philippines ever since the beginning of hostilities to guard against the violation of neutrality by the belligerents. Also it will be relieved of the necessity of guarding Russian intruder ships at San Fran- cisco and in the Philippines.

Acting Secretary of State Loomis said: "A great service has been rendered all mankind by the president. He has done many useful and excel- lent things but nothing greater than this. It is difficult at this time to measure accurately the profound and wide-sweeping importance of his ef- forts. The outcome is a tribute to his strength of purpose, to his faith and to the power of his personality."

"The president has personally done more to bring about this much desired peaceful settlement of the war in the far east than the world knows, or perhaps will ever know."

"All the credit and gratitude that can justly be bestowed upon a man who in the face of dire difficulties and manifest discouragements, single- handed, leads two great warring na- tions into peaceful ways, should gen- erously and unreservedly be given him."

What Grover Cleveland Thinks.

New York, Aug. 30.—Cleveland wires the Globe from Tamworth, N. H., "The news of peace reinstates the faith of those who believe that ad- vance civilization should mean peace and means the abandonment of war and slaughter, and the taking up of agencies of national progress and greatness."

Japan Issues Statement.
 Portsmouth, Aug. 30.—The fol- lowing statement was issued by Mr. Sato on behalf of the Japanese plen-ipotentiaries:

"The questions of the final dispo- sition of Sakhalin and the reimburse- ment to Japan of her war expenses have from the first been issues on

Getting Ahead

Is at the same time easy and hard. Easy because so few people are trying to do so, thus lessening competition. Hard because it nearly al- ways calls for some sacrifice.

You may or may not desire to get ahead, but you can count on it that the ones who have gotten ahead had to make some extra effort to do so, or else they would not have gotten ahead.

Saving is a first-rate start at getting ahead. One dollar will start an account.

which absolute divergence of views existed. The difference of opinion upon these points—not one but both—have frequently threatened the ex- istence of the conference, but his majesty, the emperor of Japan, re- sponding to the dictates of humanity and civilization, has, in a spirit of perfect conciliation and in the inter- est of peace, authorized his plen- ipotentiaries to waive the question of reimbursement of war expenses and has consented to division Sakhalin upon terms which are mutually ac- ceptable, thus making it possible to bring the important work of the con- ference to a successful issue."

Two Articles Complete.

Portsmouth, Aug. 30.—A rough draft of the first two articles of the peace treaty were completed at noon. They are the evacuation of Manchu- ria by the armies of Russia and Ja- pan at a date to be decided upon by the military commanders in the field, and the recognition of Japanese pre- dominant influence in Manchuria po- litically and commercially. The only restriction is she must not fortify Masanpo harbor.

NOT AS PRISONER

WILL WALTER COLEMAN RE-
TURN TO NEW ORLEANS,
HE SAYS.

Detectives Will Today Take Him to
Bardwell Before Circuit Judge
Hugg.

Walter Coleman, the young rail-
roader who was arrested here for al-
leged box car breaking in New Or-
leans, will be taken to Bardwell this
afternoon before Circuit Judge Hugg.
This is done in order that Coleman
either be released to return at once
to New Orleans, he being in bad
health.

This morning an attempt was made
to reach an agreement by which Cole-
man return to New Orleans, but on
the refusal of Detectives Stubbs and
Kenner to sign a written agreement,
Coleman refused to go.

The agreement the attorney sub-
mitted to the detectives read that
Coleman should go back, but not as
their prisoner. Further that the de-
tectives certify that Coleman had
been regularly released on a writ of
habeas corpus.

Justice Jesse Young, acting county
judge, decided that he had no juris-
diction on but that Coleman would have
to be held until his case could be
passed on by some circuit judge. He
ordered the prisoner retained by the
sheriff, taking him out of the detec-
tives' hands.

Coleman is ill, having had a chill
yesterday, but was down town this
morning at the sheriff's office. He
states that he is innocent of the
charge, but will not go back a pris-
oner.

IN THE COURTS

Justice Young's Court.

Justice Jesse Young this morning
tried the case of Garner Brothers
against Sude Ridgeway, colored, and
decided for the defendant. The
plaintiff alleged the defendant owed
a bill of \$7 on account while the de-
fendant produced a receipt showing
she had paid \$8.50. The plaintiff
then charged that the figures were
changed and the receipt a forgery.
The court reserved his decision.

Hattie Reynolds and Hattie Stegar,
colored, were fined \$1 and costs each
in Justice Jesse Young's court this
morning for a breach of the peace.

Police Court.

Jim Taylor, white, was this morn-
ing held over in police court for pet-
ty larceny.

Taylor is alleged to have stolen a
bicycle and sold it to Gleaves &
Sons. The wheel was identified and
also Taylor as the man who sold it.
Taylor signing a statement when the
sale was made with a fictitious name.
Taylor says that Mr. Gleaves is mis-
taken in the man.

Ody Johnson, white, charged with
stealing a coat and hat and money
from John Bridges, a stranger, while
the latter slept, was dismissed.

Other cases were Arthur Dunn,
branch of the peace, dismissed; Har-
ry Horton, white, drunk and disor-
derly, \$10 and costs; Lillian Lane
and Laura Hale, colored, breach of
the peace, \$10 and costs each; Hat-
tie Reynolds, and Hattie Stegar, col-
ored, breach of the peace, trans-
ferred to Justice Young's court.

RUFF MINOR CAUGHT.

He Is Wanted for Assaulting the
Late Coroner Crow.

Chief of Police Collins this morn-
ing received a telegram from Mur-
physboro, Ill., authorities saying
that Ruff Minor, colored, has been
arrested there and is being held
pending the arrival of Paducah offi-
cers. Minor is badly wanted here and
the police have been on the lookout
for him since May 29 last year when
he attacked the late James Crow,
who was a special officer on the Dick
Fowler Decoration day excursion.
Officer Crow was so badly used that
he was bedridden for several days.
Minor is said to have done most of
the assaulting and Detective Will Ba-
ker left at noon to bring him back
for trial.

To Begin a Good Contract.

Contractors Chas. Robertson and
G. A. Gardner left this morning for
Hopkinsville, Ky., to commence the
work on the sewerage system there.
This system will be owned by a pri-
vate company. They took a force of
thirty men with them to make the ex-
cavations.

ACTING JUDGE CROSS

Will Dismiss No More Nuisance Cas-
es Where Guilt Is Shown.

Attorney D. A. Cross, who is act-
ing special police judge, stated this
morning that as long as he is spe-
cial judge and cases of nuisance or
breach of ordinance are prosecuted,
the defendants will be fined if found
guilty.

Heretofore the courts, dismissed
cases of this order with promises
from the defendant to "do better" or
remedy the matter. This morning
Thomas Thompson, colored, was ar-
raigned for running water into an
excavation made for sewers. The evi-
dence was partially heard and left
open. Judge Cross stated that since
the move to improve sanitation was
made and everybody was fighting for
a cleaner city, he intended aiding in
an official way and if Thompson is
guilty will assess a fine.

LAWRENCE HANLEY DIES IN POVERTY

Well Known Actor Succumbs to Consumption.

His Wife, Who Left Him Ten Years Ago Went to See Him and Forgave Him Before He Died.

HE HAD PLAYED IN PADUCAH

Los Angeles, Cal., Aug. 30.—Lawrence Hanley, the actor, died here in poverty. The ladies' aid society has taken charge of the body and will arrange for the funeral. Hanley was at one time a promising Shakespearean actor, being possessed of a fine voice and figure.

He was a victim of intemperance, intemperance and the drug habit. Some months ago he was thought to be at the point of death at another hospital in this city. He rallied, however, and went to San Francisco. He grew worse and was brought back here. For eight weeks he has been gradually failing.

Edith Lemmet, to whom Hanley was married when at the height of his fame, and who left him ten years ago, is in this city, where she appeared to keep an engagement in Richelieu in Belasco's theater. The cloud which darkened her life began to gather within a few months after the wedding. It came to her knowledge that he drank and that liquor crazed his brain. At the end of the first year of their married life she was at the point of leaving him. His protestations that he would reform his ways were so strong that she consented to remain another year with him on probation.

It was in Cincinnati that, ten years ago next month, the crisis was reached. He was in The Players with an all-star cast at the Grand opera house. Insane from excessive drinking, he attacked his young wife. She was compelled to flee from him to protect herself. In seclusion with a friend she remained until his engagement was at an end. When Hanley recovered from his carousal and realized what he had done he was overwhelmed with remorse. For ten days an army of detectives and many friends of his sought her in vain. He hoped by finding her to bring about a reconciliation. She, however, was determined that they must part forever. From that day until last evening they never saw each other.

Down the social scale and the theatrical ladder Lawrence Hanley went after the separation from his wife. He seemed unable to shake off the evil influences and allowed them to control him until he was attacked by a pulmonary trouble. During the last few days he had been, in his delirium, calling for Edith, and yesterday, at the instance of friends, she went to his bedside and there, while he was rational, he begged her forgiveness, which she freely granted. Their little daughter, for whom he also asked, was in the country some distance from this city and could not be brought in time to see him before his death.

Lawrence Hanley was well known to Paducah theatergoers. He formerly came to Paducah every season, played at the old Morton's opera house, and had many admirers. He had not visited Paducah for several years.

NEW HYMNAL

UNDER COURSE OF PREPARATION IS OFF THE PRESS.

Methodist Volume is of Great Interest and Contains a Thousand Pieces.

Pittsburg, Pa., Aug. 24.—A copy of the new Methodist Hymnal, the official song book of the Methodist Episcopal Church, South, has just made its appearance from the press. It is a remarkable volume in many respects.

For six years the Hymnal has been in course of compilation, having been authorized by the General Conference of the two churches in 1900. The former Hymnal contained more than 1,100 hymns. The new book contains 117 hymns, ten doxologies and twenty chants and occasional pieces. The work of cutting down the number was perhaps the hardest feature of the entire undertaking that the new book should not contain more than 1,000 hymns, then, cutting down the number 100 at a time balloons were cast until a majority of the commissioners voted in favor of 700.

Three hundred and six authors were represented in the hymnal, eighty-six of whom are living. Among these appear the most interesting of which is that of Rudyard Kipling, whose "Recessional" holds a place of honor.

Among other new names are those of Richard Watson Gilder, editor of the Century, and the Rev. Washington Gladden, whose attack on John D. Rockefeller brought him notoriety, and Bishop William C. Doane, of the Protestant Episcopal diocese of Albany. Among the great poets and authors are William Chilen Bryant, Mrs. Elizabeth Barrett Browning, Phoebe Cary, William Cowper, Oliver Wendell Holmes, J. G. Holland, Sidney Lanier, Thomas Moore, Sir Walter Scott, Harriet Beecher Stowe, Lord Tennyson, John Greenleaf Whittier, N. P. Willis and John Dryden.

Charles Wesley, naturally, contributes the greatest number of hymns having 134. Isaac Watts comes next with fifty-three. Philip Doddridge following with twenty-two and James Montgomery with nineteen. John Wesley, too, has nineteen. Horatius Bonar has twelve, John Newton has thirteen, J. M. Neale nine, Frances Ridley Havergal has eight and twelve are marked "unknown."

The name of Ira P. Sankly appears but once among the composers. Some of the most famous names in the musical world appear. Beethoven having thirteen, Handel seven, Jacob Ludwig, Felix Mendelssohn-Bartholdy seven, Hayden three, Gounod three, Sir Arthur Sullivan seventeen and Sir John Stainer thirteen.

NO ACTION

Yet Taken to Acquire the Warehouse Property.

The city has not yet taken any steps towards acquiring the property on Broadway where the Graham and Farmer warehouses stood, but it is understood the matter will be taken up at the next regular meeting of the board.

Alderman Wm. Kraus brought the matter up at a recent meeting of the aldermanic board and suggested that the city take some steps towards securing the property to open Tenth street from Broadway to Kentucky avenue. If the city waits until buildings are put up and then condemns the property will cost a great deal more than now.

NOTICE OF WEDDING

Is Only 18 But It Was Her Third Marriage.

Justine R. J. Barker was this morning called to the court house to marry Albert Forgeson, to Florence Stupp, both of Brookport, Ill. The groom is 29 and had been married once before. His bride is 18 and this makes her third marriage and in order that she could join hands with her husband, she had to hand over her child, which she held in her arms, to a companion. The couple was married at 10 o'clock and left on the morning boat for home in Brookport.

FINAL PASSAGE.

Given the Two Ordinances for Street Car and Light and Power Franchises.

The councilman board held another called meeting last night and gave second passage to the two ordinances for the sale of a street car and light and power franchise. These two ordinances are identical with the one existing franchise ordinance, and

make the franchise expire at same time the present franchise expires. The only reason the ordinance are being passed is that the most capitalists who have bought a street car line and power plant are to operate under two separate franchises.

You may know such a thing is a thoroughly reliable when you cannot for the life of you why it is not.

DR. WILL BAILEY SPEAKS TONIGHT

A Prominent Member of Health Board Arrives This Afternoon.

He Will Be at the City Hall, and All Should Hear Him on Yellow Fever.

LOCAL HEALTH OFFICERS BUSY

President C. H. Brothers and Dr. H. P. Sights, of the board of health, met with Dr. A. T. McCormack at Camp Yeiser this morning to make arrangements for the reception and entertainment of Dr. Wm. Bailey, of Louisville, who comes to Paducah in interest of the state board of health to discuss the local situation with reference to the precautionary measures to be taken against yellow fever.

Dr. Bailey is one of the most prominent physicians in the south and a great worker for the state board of health. He was sent to Cuba for two months during the yellow fever epidemic down there, to study the situation and the measures taken to arrest its spread, and report to the Kentucky board. He has done other notable work in this line and is a very competent authority on yellow fever.

"We want Dr. Bailey to meet all your city officials, the board of health, and the citizens of the city tonight at the city hall," said Dr. A. T. McCormack, at Camp Yeiser this morning. "We know his visit to Paducah will be fruitful. He will deliver an address to your people and give them the benefit of his experience with yellow fever. He will tell you what precautions are being taken by our state board, and why we are opposed to a quarantine. We want you to invite every one to be present, as the general public is in ignorance of the true position of the state board, and after it is explained to them, there is hardly a fair-minded man who will not endorse that position."

"The state board of Kentucky has given this subject deep study, and the course it is taking in this 'panic' is being watched with great interest by every state in the country that any way fears yellow fever, and we are daily getting the endorsement of doctors who have heretofore believed in the strictest quarantine."

"The state board has inspectors on every train coming into Kentucky, and there is not a ticket sold anywhere in the south that is not reported at once to our board, and we don't think it possible for a fever case, or suspect to get into the state."

"Your people want a quarantine, but they would not if they knew the situation as we do. If you quarantine you will have to have at least fifteen inspectors to meet all the trains and these men must be doctors of standing. They get from \$10 to \$15 a day. You must have men on every road entering the city and at the river wharves, and look at that expense. If a man at Benton, Princeton, Murray or Mayfield wants to come to the city, he can not come with freedom, and will stay away. Thus your retail trade is crippled."

"Your principal reasons for wanting a quarantine were that your people could not get into some of the nearby towns, were they not? Well, all that has now been arranged. The reason for turning down your health certificates were that the neighboring cities had no confidence in the officers issuing your certificates. You have adjusted this to their satisfaction now, and your people can go anywhere. If you had taken the proper precautions in issuing these certificates at first you would never have had any trouble."

"It is true you can not get your certificates recognized in Cairo, or Memphis. But these cities have quarantined against the world. No one can get into them from anywhere without a certificate from their own authorities. But what does that safeguard? Why, it is an evident fact, seen every day, that men go into Memphis and Cairo, get a certificate to re-enter the city in a few days, and when they leave they give these same certificates to other men who want to enter."

"Dr. Heber Jones says it is costing Memphis \$100,000 for inspectors and to enforce their quarantine, and what would it cost Paducah, in proportion? A goodly sum. If you will make the same money you would pay out for a quarantine, and expend it in getting the city into a good sanitary condition, it would do you much more good. I don't mean any reflection on your city's sanitary condition, but it is an evident fact that it needs cleaning up, as all towns do just now."

Dr. McCormack laughed when asked if the state board was bluffing when it announced it would order the railroads to run their trains by the city if a quarantine was established. "Why, we never made any such threat against Paducah. We are merely watching the situation here, and will raise any quarantine established. We will take no legal steps in the premises but when the state board announces it has raised your quarantine, it will lay your city, your city officials, and your board of health, liable for damages. Anyone detained from entering can bring suit according to the decisions of the state supreme court, recover damages."

"We are only working for the good of your city as well as the state in what we are doing. Your people of course have another idea of that subject, however. But what is being done by the state board is prompted by years of experience. We have tried quarantines and other measures, and we believe we are adopting the best one. We don't for one reason want Paducah to quarantine because every little hamlet in the state will think it also has the right to do so, and you let them do it and see what will become of your business interests."

"I think the worst of the fever is over now, yes. There is no danger of the fever spreading when the thermometer goes as low as 70 at night and it does this every night now."

Dr. Palmer, of Springfield, Ill., a member of the Illinois board of health, stationed at Cairo, will be the guest of Dr. McCormack at Camp Yeiser, tomorrow. Dr. Palmer, laughingly said, over the phone today, that he would come to Paducah if it was safe for him to do so.

Health Officer W. T. Graves has returned from Cairo, where he met Dr. Palmer, of the Illinois board of health Tuesday to discuss the fever situation. He made arrangements with Dr. Palmer whereby all Southern Illinois towns will recognize the health certificates issued by Dr. Graves or Dr. Rivers.

Dr. Sights received word today that all the smaller cities of Tennessee have been furnished copies of the agreement made with Memphis for recognition of certificates issued by the local authorities, and instructions issued for their recognition, and it would be recorded.

Some policemen form peculiar habits and one of these caused an officer some little embarrassment several nights ago.

He had a habit of carelessly striking each acquaintance he met about his hip pockets with his club, a habit formed in his early experience on the force. This was one way he caught persons carrying concealed weapons, and although he tried not to practice it on his acquaintances, the habit

sometimes caught him napping.

No matter whom he met he would strike him affectionately with his club. Meeting a friend one night shortly after 6 o'clock he touched him affectionately with his club. The young man's pockets were bulging out and unfortunately the club struck the side pocket. There was a muffled report and the young man clapped his hand over his pocket, but too late.

He had gone to the hardware store to secure electric light globes and rather than carry them about in a sack, had placed them in his pocket. He had three, the amount he needed in his suite of rooms, and all were broken by the policeman's billie.

The young man had to go to bed in the dark that night and now the officer is trying harder than ever to break himself of the habit that caused the mishap.

A well known resident does not believe in the old adage of "set a thief to catch a thief," for he has tried it, and while he does not doubt that it can be done and might prove successful in some cases, in this particular case he found that he needed a thief of very high morals to aid him.

He was a poultry fancier and from time to time would miss chickens from his houses. He suffered the loss of several fine fighting cocks and a hen or two with a pedigree. He concluded that as long as he could not catch the thief he might employ some one to watch his hen houses and secured a negro at something above the average watchman's wages.

The first night not a fowl was missed, but the second night a very fine bantam rooster was found to have disappeared. The owner closely questioned his watchman but the watchman declared he had been awake all night and that no one had been about.

The third night no fowls were taken, but the fourth night a fine hen was missed and about every three or four nights some specimen of fine poultry was stolen or disappeared in some mysterious manner.

Finally, unable to stand it any longer, the fancier discharged the watchman and began a quiet investigation. He found that his watchman had been shipping several fine specimens of poultry away. The matter was traced down and to the fancier's surprise he learned that the brother of his watchman was the original thief and after his brother had been secured to watch the poultry came easier. The watchman would handle up a rooster or hen and have it ready for the brother when he came.

Mr. Mann Clark No Candidate.

Police Commissioner Mann Clark stated this morning that the report that he intended becoming a candidate for coroner is erroneous. It started as a joke, but Mr. Clark thinks the joke has gone far enough, and wants to let the voters know he is no candidate and does not intend to be.
